

FARM SAMPLING

PROCESS SAMPLING

# 10 oz Solid-Top Custody Vial

Single Use Clean Flip-Top Vial for Dairy, Food and Veterinary Sampling  
Custody Closure – Tamper Evidence

## Applications

### Fields of use

- Field collection of farm milk and related dairy products
- Quality control sample storage containers and food packaging vials
- Veterinary specimen collection, infection control of mastitis
- Environmental sampling containers

### Options

- Can be supplied with label (barcode...)
- Standard vial is colourless – colours upon request

## Benefits

### Flip-Top Design

- Design allows single handed opening and closing
- Patented "in mould closing" process for snap seal
- Aseptic and leaktight by process of manufacture
- Translucent enabling visual inspection
- Food Grade Polypropylene and 100% Recyclable
- Vial is usable while wearing protective gloves eg cold environment
- Tamper evidence insures inviolability before the first use
- Custody closure secures samples

### User-Friendly Hinged Vial Concept

- One-hand opening and closing for perfect cleanliness and ease of use
- Allows the use of gloves in cold environment

### Regulatory and Quality

- ISO-9001 certified company
- Complies with Regulation (EC) No 1935/2004

## Characteristics

Please note that these values are average measurements

Internal Volume	333 ml
Filling Level Line	242 ml
Vial Overall Height	118,8 mm
Body Height	117,2 mm
Inside Height	115,9 mm
Top Lid Diameter	68,1 mm
Top Body Diameter	64,5 mm
Inside Top Diameter	62,8 mm
Bottom Body Diameter	62,8 mm
Vial Weight	37,5 grams

PRODUCTION MOULD #901

ART. # 03 06 5119 00CU CN

In Colour Clear – 90 Pieces per Box – 30 Boxes – 2.700 Pieces per Pallet
